EDUCATION

2009-2013
SIR SYED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

- BS Computer Science

2007-2009
D.A DEGREE COLLEGE FOR MEN
• Intermediate in Pre-Engineering

TECHNICAL SKILLS

Frontend

- React.js, Redux, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries

- Bootstrap, Tailwind CSS

Tools

- Git, Figma, Adobe XD

Concepts

- Responsive Design, Component-Based Architecture, REST API Integration, Cross-Browser Compatibility, Performance Optimization, Agile, Component Architecture, Debugging, SPA, Version Control

PROFILE SUMMARY

Front-End React Engineer with 5+ years of experience developing scalable and responsive web applications. Strong expertise in React.js, JavaScript (ES6+), HTML5, CSS3, and modern front-end development practices. Experienced in building single-page applications (SPA), reusable components, and REST API integrations while ensuring cross-browser compatibility and performance optimization. Proven ability to improve application performance and maintainability through clean, efficient, and well-structured code. Skilled in Git-based workflows, UI/UX collaboration, and agile development environments to deliver reliable and user-friendly web solutions.

WORK EXPERIENCE

Front-End Lead

Al Rehman Technologies | 2021 – Present

- Led a team of developers to build scalable web applications using React.js and Redux.
- Improved Core Web Vitals by 40%, reducing page load time through performance optimization.
- Converted Figma, Adobe XD, and PSD designs into responsive HTML5, CSS3, and JavaScript interfaces.
- Built secure authentication systems including login, signup, and dashboards.
- Developed reusable React components and modern UI systems.
- Conducted code reviews and mentored developers, improving development standards.

Front-End Developer

Digitonics Labs | 2019 – 2021

- Developed and deployed responsive, cross-browser compatible web applications for multiple client projects using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Designed and built reusable UI components using React Hooks and Styled Components, improving code maintainability and development efficiency.
- Migrated legacy JavaScript-based applications to React.js, enhancing application performance, scalability, and maintainability.

-
- Built and customized Bootstrap-based UI themes and layouts, delivering responsive and user-friendly interfaces for client websites.
 - Collaborated with designers to convert Figma, Adobe XD, and PSD designs into pixel-perfect, production-ready front-end interfaces.
